

General Information

This shoot is registered with NSSA and all events will be conducted in accordance with NSSA regulations.

All shooters are required to have eye and ear protection.

Shooters are not permitted in the trap houses. Only authorized personnel will make all required adjustments.

Shooters must provide their own proof shells.

NSSA rules for observation of targets by shooters will be followed. All targets, including "lookers", will be thrown by the field referees.

Management reserves the right, without protest, to alter or suspend the program if it deems conditions warrant and also reserves the right to refuse any entry or cause the withdrawal of any shooter for any reason the management deems appropriate.

Shooters and spectators assume all risks of theft or accident. Parents are responsible for the behavior of their children,

It is the participants responsibility to have their classification card up-to-date and to verify their shooting class before presenting it to registration. A shooter in the wrong class will forfeit all awards and monies.

LRSTC is actively working with our staff members to become experienced referees. Several of the staff members are NSSA certified but have had limited experience at NSSA registered events. We request your patience, support, and assistance to ensure the future availability of experienced Maryland referees.

Squads will have the option to self-referee or, if possible, request a shooting referee from squad.
